

Public Safety Interoperable Communications Office

ANNOUNCEMENT

Gila County, Graham County and Greenlee County TICP Kickoff & Development Workshops

July 31, 2013 & September 24, 2013

Description: Arizona's Public Safety Interoperable Communications (PSIC) Office will be assisting the counties of Gila, Graham and Greenlee to develop a Tactical Interoperable Communications Plan (TICP) which documents interoperable communications governance structures, technology assets, and usage policies, and procedures.

First responders can use a TICP to clearly define the breadth and scope of interoperable assets available in the counties of Gila, Graham and Greenlee, how those assets are shared and their use prioritized, and the steps individual agencies should follow to request, activate, use, and deactivate each asset.

The TICP will assist agencies within the counties of Gila, Graham and Greenlee to:

- Identify all mobile/deployable equipment assets including related personnel resources (COMLs, COMTs, etc.)
- Document these assets
- Determine how best to group these assets for various types of deployments
- Establish the request, activation and deployment procedures for these groups of assets within the County
- Establish procedures for deployment (outside the County) for statewide use

Meeting: The workshops for this effort will be held as follows:
